## INSTRUCTIONS

### WHO MUST FILE THIS REPORT

All persons registered with the Wisconsin Department of Revenue who transport motor vehicle fuel, general aviation fuel or alternate fuels in Wisconsin are required to complete and file this report with the department each month. In addition, pipeline, rail, ship and barge carriers who transport fuel in Wisconsin are required to file monthly reports with the department even though such carriers are not required to register with the department. A report must be filed even if a fuel carrier does not transport any petroleum products in Wisconsin during the month.

Fuel carriers who are also licensed with the department as a “restricted supplier” of motor vehicle fuel **need to** itemize fuel shipments on a carrier report that are imported from their out-of-state bulk plant or exported from their Wisconsin bulk plant. Such carriers also should still itemize on their carrier reports shipments from pipeline terminals which cross state lines.

### WHEN REPORT IS DUE

Your report, plus supporting schedules, is due on or before the 30th day of the month following the month covered by your report. To be timely filed, your carrier report must be postmarked by a United States Post Office on or before its due date and received by the department within 5 days of the due date.

*Late-filed reports.* Reports not timely filed are subject to a mandatory \$10 late-filing fee. Repeated late-filed reports will subject a transporter’s file to a close review for possible revocation by the Secretary of Revenue of the privilege to do business in Wisconsin.

(con’t on other side)

**DECLARATION:** I declare that this is an accurate and true report of motor vehicle fuel, general aviation fuel and alternate fuels transported in Wisconsin and that the provisions of Section 78.77 of the Wisconsin Statutes have been complied with regarding the maintenance and retention of records.

## MANIFEST CORRECTIONS

If the destination state or any other information on the manifest is not correct, the carrier is required to notify the terminal operator before leaving the terminal grounds, as well as the shipper, and any state involved. If the correct destination state is not noted on the manifest, the Wisconsin State Patrol has authority to seize and sell the product and the transport truck.

## FUEL DIVERSIONS

All **interstate** fuel diversions involving Wisconsin must be reported to the department using an automated telephone voice response system (IVR). The IVR system is the only method available for reporting interstate fuel diversions to the department. You must register with the department to

use this system. If you are not registered to use our IVR system and have a touch-tone phone, you can obtain information about registering by calling our toll-free number at (888) 367-1600. If you do not have a touch-tone phone or have additional questions, call the department at (608) 261-6243.
